pfSense - Bug #6101

Alias/NTP/uPNP/other Edit add and then delete of new rows issue

04/09/2016 09:41 PM - Phillip Davis

Status:	Resolved	**Start date:**	04/09/2016	
Priority:	Normal	**Due date:**		
Assignee:	Chris Buechler	**% Done:**	0%	
Category:	Web Interface	**Estimated time:**	0.00 hour	
Target version:	2.3.1			
Affected Version:	2.3	**Affected Architecture:**		

Description

Case 1:
a) Edit an existing Alias with n entries - rows 1 to n are displayed, good.
b) Press the Add button, enter data into 1 or more new rows.
c) Decide that you do not want one of those new rows - press its Delete button.
Expected result: The new row disappears.
Actual result: Row n disappears (the last of the original rows)

Case 2:
a) Add a new Alias - row 1 is displayed with no data in it, good.
b) Enter data into row 1
c) Press the Add button, enter data into 1 or more new rows.
d) Decide that you do not want one of those new rows - press its Delete button.
Expected result: The new row disappears.
Actual result: Row 1 disappears

This is "disconcerting" for users, and results in unintended data loss/modification if users are doing add/delete of rows as they decide what they really want in the alias.

History

#1 - 04/09/2016 09:44 PM - Chris Buechler

- Status changed from New to Confirmed

#2 - 04/09/2016 09:58 PM - Jim Thompson

- Assignee set to Steve Beaver

#3 - 04/09/2016 10:01 PM - Phillip Davis

It is fixed by https://github.com/pfsense/pfsense/pull/2854
But Steve or someone should look to see if there are any other side-effects of the fix, because it is in the common JS code. Maybe it will fix a similar problem in other place also that have multi-row entry with real-time interactive add-delete of rows.

#4 - 04/09/2016 10:57 PM - Jim Thompson

Thanks, Phil.

#5 - 04/11/2016 07:52 AM - Steve Beaver

- Status changed from Confirmed to Feedback

- Assignee changed from Steve Beaver to Chris Buechler

Phil's patch has been tested and applied. Thanks!

#6 - 04/17/2016 07:47 AM - Evan Susarret

It may be worth noting that this affects other pages as well - I discovered it on the UPnP settings page.
I considered opening a separate bug for the issue, but according to the note above the issue has already been addressed. Thanks, Phil!

#7 - 04/17/2016 07:55 AM - Steve Beaver

The fix will apply to all pages that use this construct, including UPnP.

#8 - 04/21/2016 03:09 AM - Chris Buechler

- Status changed from Feedback to Resolved

works

#9 - 04/22/2016 05:03 PM - Chris Buechler

- Subject changed from Alias Edit add and then delete of new rows issue to Alias/NTP/uPNP/other Edit add and then delete of new rows issue
