

pfSense - Bug #6140

upgrade_config.inc - OpenVPN topology upgrade code test incorrect

04/13/2016 12:54 PM - Jim Pingle

Status:	Resolved	Start date:	04/13/2016
Priority:	High	Due date:	
Assignee:	Jim Pingle	% Done:	0%
Category:	OpenVPN	Estimated time:	0.00 hour
Target version:	2.3.1	Affected Architecture:	
Affected Version:	2.3		

Description

If the user set topology subnet on 2.2.x the value of the "topology_subnet" config option would be set to "yes". The tag was not present if the server was created from the wizard. When the option is unset, the topology_subnet tag remains with no value. The upgrade code is only testing for the presence of the tag, not its value.
