

pfSense - Bug #6381

IPv6 over IPv4 Tunneling Option

05/21/2016 12:13 PM - Ken Sim

Status:	Resolved	Start date:	05/21/2016
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Web Interface	Estimated time:	0.00 hour
Target version:	2.3.1-p1	Affected Architecture:	
Affected Version:	2.3.1		

Description

Since 2.3 I have noticed that the "IPv6 over IPv4 Tunneling" option in Advanced -> Networking does not retain the IP when entered. You can put in an IP, click save, refresh the page and the IP is no longer listed but the check mark remains.

History

#1 - 05/21/2016 12:14 PM - Ken Sim

I have checked all of my 2.3/2.3.1 installs and they all have the same problem.

#2 - 05/21/2016 06:33 PM - Phillip Davis

This should help <https://github.com/pfsense/pfsense/pull/2976>

#3 - 05/21/2016 07:09 PM - Ken Sim

I can confirm this does resolve the issue. Thanks

#4 - 05/24/2016 05:45 AM - Renato Botelho

- Status changed from New to Feedback
- Target version set to 2.3.2
- % Done changed from 0 to 100

Merged, thanks!
