Description

Seems Org is there but Org Unit is missing. This is required by many CAs

See thread here

I created a test csr to see if just not on the gui but blank or default info was being listed in the actual csr, but its just not there.

Looks like an easy fix for this missing field. I have a patch I'm testing that adds an optional OU field, works OK to leave it blank or to add it in, only adds the OU to the subject when it's defined.
