Target version:	2.3.2-p1	Affected Architecture:	
Affected Version:	2.2.x		

Description

icon for Related log entries for the DHCPv6 Server (and relay) is for logfile=dhcp but that doesn't match anything specific and shows everything "General".

I didn't test but see shortcuts.inc:
`$shortcuts['dhcp6']['log'] = "status_logs.php?logfile=dhcp";`
