#### Description

diag\_states\_summary is not intuitive as each table has two columns with same "# States" header.  
first is for \$ipinfo['seen'];  
and second is for \$protoinfo['seen'];  
Maybe have the header say "Protocol counts" over the last three fields  
or add a documentation line at top (or bottom) to explain that.

(My list of bugs is at <http://reedmedia.net/books/pfsense/bugs-20160813.html> )
