

pfSense - Bug #6801

Rule separators are moving when multiple firewall rules are deleted together

09/21/2016 08:36 AM - TCI User

Status:	Resolved	Start date:	09/21/2016
Priority:	Normal	Due date:	
Assignee:	TCI User	% Done:	100%
Category:	Web Interface	Estimated time:	0.00 hour
Target version:	2.3.2_1		
Affected Version:	2.3.2	Affected Architecture:	amd64

Description

Steps to reproduce:

1. Select multiple firewall rules
2. Delete together
3. The rule separators changed their position

IMPORTANT NOTE: Only the separators below the deleted firewall rules are moving.

Steve, would you provide me with basic instructions on how to apply the change so I can test it?

I already have the System_Patches package installed.

Thanks,
Slav

Probably easiest to just wait from the next snapshot and update. Alternatively you could access the updated file here: https://github.com/pfsense/pfsense/blob/master/src/usr/local/www/firewall_rules.php and copy/paste it into your pfSense installation using Diagnostics -> Edit file.

#6 - 09/21/2016 11:49 AM - Jim Pingle

The wiki doc for the System Patches package explains how to use the commit ID from the above comment to apply the patch: https://doc.pfsense.org/index.php/System_Patches

#7 - 09/21/2016 12:15 PM - TCI User

Thank you Steve / Jim.

I found it safer to apply the changes through Diagnostics -> Edit file.

Confirming that firewall_rules.php works fine and the separators do not move.

Please apply the change and to firewall_nat.php

Regards,
Slav

#8 - 09/21/2016 12:48 PM - Steve Beaver

- Status changed from Feedback to Resolved

- Target version set to 2.3.2_1

Thanks for confirming. Fix has now been applied to firewall_nat.php as well.
