pfSense - Bug #6836

Wrong queue length on "/status_queues.php" page under heavy traffic

10/02/2016 12:52 PM - Vladimir Putin

Status:	Rejected		**Start date:**	10/02/2016
Priority:	Normal		**Due date:**	
Assignee:	Vladimir Putin		**% Done:**	0%
Category:	Traffic Shaper (ALTQ)		**Estimated time:**	0.00 hour
Target version:	2.4.0			
Affected Version:	2.3.2		**Affected Architecture:**	

Description

Investigated mostly here
https://forum.pfsense.org/index.php?topic=118789.0
Looks like /status_queues.php code is somewhere broken, it report wrong values for queue length under load and sometimes I have seen huge large numbers for bandwidth — some Gbps instead of kbps. Can someone check this?

History

#1 - 01/07/2017 12:26 PM - Jim Thompson

- Status changed from New to Assigned

- Assignee set to Vladimir Putin

please close and reopen this as someone other than "Vladimir Putin".

not kidding.

#2 - 01/07/2017 11:10 PM - Vladimir Putin

Please point me to the some redmine EULA or law, why I can not use this name anymore like it was used for the 5 last years on redmine and I'll do what you want.
https://www.redmine.org/projects/redmine/wiki/PrivacyPolicy claims that I can use the site pseudonymously, that means I can use any last name I want, is not it?

#3 - 01/08/2017 09:21 AM - Jim Thompson

The Ts & Cs of the redmine project don't apply here

#4 - 01/08/2017 09:25 AM - Vladimir Putin

So show me what is applied here and please remove all not applicable redmine "Ts & Cs" links from this site also.

#5 - 01/24/2017 05:34 AM - Jim Thompson

- Status changed from Assigned to Rejected

rejected for reasons shown in-thread.

#6 - 01/24/2017 09:42 AM - Vladimir Putin

Sorry, I see no reason, just outrage and not from my side.

#7 - 02/15/2017 08:10 AM - Ronald Trump

I'm experiencing the same issue. Is this being tracked somewhere? My search has come up empty so far.
