

## pfSense - Todo #7032

### Make a lack of ALTQ-capable interfaces more obvious to the user

12/22/2016 09:18 AM - Jim Pingle

<b>Status:</b>	Resolved	<b>Start date:</b>	12/22/2016

<b>Target version:</b>	2.4.0		
<b>Description</b>			
On systems that do not have any assigned interfaces capable of using ALTQ, that fact is not make obvious enough to the user. Some screens are simply blank or produce ambiguous error messages.			
This is especially a problem on SG-1000 since the cpsw interfaces do not yet support ALTQ.			

#### Associated revisions

##### Revision aa64bb65 - 12/22/2016 09:20 AM - Jim Pingle

Be more forthcoming with errors about ALTQ interfaces in relevant areas of the GUI. In particular, note when there are no capable interfaces assigned. Implements #7032

#### History

##### #1 - 12/22/2016 09:30 AM - Jim Pingle

- Status changed from Assigned to Feedback
- % Done changed from 0 to 100

Applied in changeset [aa64bb65db2f788846eee9a62bccde280a605a](#).

##### #2 - 12/23/2016 08:24 AM - Jim Pingle

- Status changed from Feedback to Resolved

Looks much more obvious, hopefully it's clear to users now.
