

pfSense - Bug #7195

pkg_edit.php - <enablefields>/<checkenablefields> tag has no effect on fields other than checkbox/input

02/02/2017 10:43 AM - Kill Bill

Status:	New	Start date:	02/02/2017
Priority:	Normal	Due date:	
Assignee:	Steve Beaver	% Done:	0%
Category:	Package System	Estimated time:	0.00 hour
Target version:	Future	Affected Architecture:	All
Affected Version:	All		

Description

When messing with another piece of JS for Squid, I figured out that I'd rather not be missing with it. :P So, it would be nice if the <enablefields>/<checkenablefields> tag worked for any field types (such as textarea, select, select_source, interfaces_selection), instead of putting custom JS into packages.

#2 - 07/07/2017 03:41 PM - Jim Pingle

- Target version changed from 2.4.0 to 2.4.1

#3 - 10/12/2017 09:53 AM - Jim Pingle

- Target version changed from 2.4.1 to 2.4.2

#4 - 10/23/2017 12:20 PM - Jim Pingle

- Target version changed from 2.4.2 to 2.4.3

#5 - 02/01/2018 03:08 PM - Steve Beaver

- Target version changed from 2.4.3 to 2.4.4

We hope to provide an alternative means of achieving this, but it won't make it in 2.4.3, so ++target_version :(
