Description			
Good Day			
Im new on the pfsense			
Everything is work fine until i see this error.			
The system is currently working fine but it's still bugging me.			
How can i fix this error			
Thank you in advance.

It's hardly working fine when you get huge crash reports.

How can i fix this error

You should fix the crashes instead. Impossible to say what's the real problem, there's virtually no information here.

Post on the forum for help. Then later if there is some bug or good change to make to the software it can be opened as an issue.
