

## pfSense - Bug #7504

### Info blocks do not work inside a table

05/02/2017 02:10 PM - Jim Pingle

<b>Status:</b>	Resolved	<b>Start date:</b>	05/02/2017
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	2.4.0		
<b>Affected Version:</b>	2.4	<b>Affected Architecture:</b>	All

#### Description

While attempting to make some collapsible info blocks in the certificates list, I found that the click event to show/hide info blocks doesn't work in that context.

Steve B is investigating, so far it looks like it isn't working inside a table.

#### Associated revisions

##### Revision 666be0be - 05/02/2017 04:03 PM - Jim Pingle

Per sbeaver, disable an IE workaround, which fixes #7504

#### History

##### #1 - 05/02/2017 04:10 PM - Jim Pingle

- Status changed from Assigned to Feedback

- % Done changed from 0 to 100

Applied in changeset [666be0be1b9d7caa92571c8ef781b73c095101a8](#).

##### #2 - 05/03/2017 04:10 AM - James Snell

Tested 2.4.0.b.20170502.2240 from:

- Microsoft Edge 38.14393.1066.0

- Internet Explorer 11.1066.14393.0

Info block in the certificates list is expanding and collapsing as expected.

Test passed, thanks!

##### #3 - 05/03/2017 07:24 AM - Jim Pingle

- Status changed from Feedback to Resolved

Thanks for testing!

##### #4 - 08/23/2017 07:51 PM - NOYB NOYB

Fix with conditional instead of removing. - /usr/local/www/js/pfSenseHelpers.js

```
///  
///  
///  
-// Put a dummy row into any empty table to keep IE happy  
-// Commented out due to https://redmine.pfsense.org/issues/7504  
-// $('tbody').each(function() {  
-//     $(this).html($.trim($(this).html()))
```

```

-//});
+// IE overflows table when tbody is empty/whitespace.
+// Put a dummy row into any empty/whitespace tbody to prevent empty table scroll bars.
+$('#tbody').each(function(){
+    if ($(this).html().trim().length == 0) {
+        var colCount = 0;
+
+        // Get the number of table columns.
+        $(this).parent().find('tr:first').children().each(function() {
+            if ($(this).attr('colspan')) {
+                colCount += +$(this).attr('colspan');
+            } else {
+                colCount++;
+            }
+        });
+
+        $('#tbody:empty').html("<tr><td></td></tr>");
+        // Insert the dummy row, spanning all the table columns.
+        $(this).html('<tr><td colspan='+colCount+'></td></tr>');
+    }
+});

```
