

pfSense - Bug #7559

I2tp wins unused code

05/20/2017 09:14 AM - Jeremy C. Reed

Status:	Resolved	Start date:	05/20/2017
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	100%
Category:	L2TP	Estimated time:	0.00 hour
Target version:	2.4.0	Affected Architecture:	
Affected Version:	All		

Description

vpn_l2tp_configure in /etc/inc/vpn.inc can use `$l2tpcfg["wins"]` for NetBIOS name server (NBNS) information but that "wins" is not configured anywhere. If it is not desired, then remove that stale code? (I did see similar for `vpn_pptp.php` but this bug is about I2tp.)

(I noticed this while working on my book. My list of bugs is at <http://reedmedia.net/books/pfsense/bugs.html>)
