**Description**

vpn\_openvpn\_server.php  
Address Pool  
sets pool\_enable.  
I don't see any code that uses it, like not in /etc/inc/openvpn.inc  
What uses this code?

Also this is for addrpool in the wizard. What uses it?

(I noticed this while working on my book.

##### Revision bc3669e4 - 05/22/2017 11:24 AM - Jim Pingle

Remove references to unused "Address Pool" setting. The address behavior is now determined by the mode, and has been for years. Fixes #7567

#### History
