growl and notification suggestions

05/20/2017 10:35 AM - Jeremy C. Reed

Status:	Resolved	Start date:	05/20/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Notifications	Estimated time:	0.00 hour
Target version:	2.4.0		

Description

system_advanced_notifications.php has a button to test growl, but no indication locally (in the GUI) if used or not. In particular shouldn't it warn if the IP address and password is blank?

In addition, there is no indication locally (in the GUI) if the Test SMTP Settings button did anything.

Since it says uses the currently stored configurations, it should show what they are here just in case changed above, or when the test is done it could display what settings were used. or could use multiple submit buttons and call this one Save and Test SMTP Settings?

History

#1 - 05/22/2017 01:33 PM - Jim Pingle

- Category set to Notifications
- Status changed from New to Resolved
- Target version set to 2.4.0
- % Done changed from 0 to 100

Already has a fix merged on 2.4 so the buttons use the new settings:
