**Description**

diag\_pftop.php has "Size" for sorttype which is not a order type known by pftop. (sort\_size\_callback in pftop is "Bytes".)  
Size is not a sort option and is same as "none".

(I noticed this while working on my book.

#### Associated revisions

##### Revision 9cf0609b - 05/22/2017 01:38 PM - Jim Pingle

Remove "size" option from pftop as it does nothing. The "bytes" option is the correct one to use. Fixes #7579

##### Revision 646a993e - 06/15/2017 09:41 AM - Jim Pingle

Remove pftop size from this list, too. Fixes #7579

FYI- The man page is wrong on this, then. It appears we originally included it since the man page listed it among the valid options.
