

pfSense - Feature #7643

Send notification when boot completed

06/13/2017 04:42 AM - robi robi

Status:	Resolved	Start date:	06/13/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Notifications	Estimated time:	0.00 hour
Target version:	2.4.3		
Description			
<p>Please add an option with a checkbox in System / Advanced / Notifications to send a notification when bootup has completed. Would be useful to get notified immediately after unexpected reboots (like after power failures or so).</p> <p>A good example for this would be to just run something like this after the boot process finished:</p> <pre>(echo -n "Boot completed at: " && date +%F_%T) /usr/local/bin/mail.php -s"pfSense boot completed"</pre>			
<p>Thank you.</p>

Here's a more meaningful command in one line, containing the hostname of the system:

```
(echo -n `hostname` && echo -n " boot completing at: " && date +%F_%T) | /usr/local/bin/mail.php -s"`hostname`  
- Boot completed"
```

#2 - 10/12/2017 02:47 PM - Luca Moncelli

I also think that would be very useful function.

#3 - 10/19/2017 10:00 AM - Jim Pingle

- Target version changed from 2.3.5 to 2.4.3

#4 - 02/15/2018 02:08 PM - Jim Pingle

- Category set to Notifications

- Status changed from New to Resolved

This has been present and working as of [1c2ef5f22ff76419ff7f4ba620a02b8a14dc3078](https://github.com/pfsense/pfsense/commit/1c2ef5f22ff76419ff7f4ba620a02b8a14dc3078)
