

pfSense - Todo #7689

bsdinstall does not automatically copy config.xml from USB drive like the previous installer

07/12/2017 01:14 PM - Jim Pingle

Status:	Resolved	Start date:	07/12/2017
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	0%
Category:	Installer	Estimated time:	0.00 hour
Target version:	2.4.0		
Description			
Feature is described here: https://doc.pfsense.org/index.php/Automatically_Restore_During_Install			
Basically: Locate any DOS formatted USB drives, check for conf/config.xml on the drive, if found, copy to the install target.			
To me, I have a working patch.

Change committed to freebsd-src repo, should show up in snapshots soon.

#2 - 07/14/2017 03:23 PM - Jim Pingle

- Status changed from Feedback to Resolved

Looks good, multiple confirmations that it works.
