<b>Description</b>			
<p>I know this is not the best (or correct) method to give feedback or code but maybe you can find this useful</p> <p>I wrote a little function in the line 229 of fbegin.inc file, with de purpose of remove unnecesary menu items, when some configured users are not allowed to enter such pages on the webgui, personally I suggest it for aesthetics improvement, hope this one could help to ohters.</p> <p>Regards</p> <pre>/* REMOVE UNNECESSARY MENU ITEMS CODE by Angel Sandoval (oilop9000) */  function removeNotAllowedItems (&amp;\$menuArray, \$menuAllowedItems) {     global \$_SESSION;     if (!is_array(\$menuArray))         \$menuArray = array();      foreach (\$menuArray as \$itemIndex =&gt; \$item) {         \$itemBaseName = basename(\$item[1]);         //Remove unnecessary Items from menu         if (!cmp_page_matches(\$itemBaseName, \$_SESSION['page-match']))             unset(\$menuArray[\$itemIndex]);     } }  // Example of use: removeNotAllowedItems(\$services_menu,\$menuAllowedItems);</pre>
