

pfSense - Todo #7762

Add uid check to pfSense-upgrade and exit unless it is run as uid=0

Status:	Resolved	Start date:	08/09/2017
Priority:	Normal	Due date:	
Assignee:	Renato Botelho	% Done:	100%
Category:	Upgrade	Estimated time:	0.00 hour
Target version:	2.4.3		
Description			
Running pfSense-upgrade as a non-root/admin user will produce errors that are not obviously related to lacking privileges to run it. As a courtesy to the user, it should exit if it is not being run by uid=0. That should cover it being run by root, admin, or via sudo.			

History
