

pfSense - Bug #8092

Captive Portal Allowed MAC bandwidth changes

11/14/2017 04:36 AM - Jesnar Miranda

Status:	Resolved	Start date:	11/14/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Captive Portal	Estimated time:	0.00 hour
Target version:		Affected Architecture:	
Affected Version:	2.4.1		

Description

Hi,

I've seen these in all of my pfsense devices.

Allowed Mac address changes in bandwidth doesn't apply.

Tried restarting the captive service portal but didn't work.

Need to restart the router to apply changes.

Don't know if it's the same with voucher bandwidth limit changes.

History
