

pfSense - Bug #8176

../schema/packages.dtd -- referenced in *xml, but missing?

12/09/2017 06:52 PM - Harry Coin

Status:	New	Start date:	12/09/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Package System	Estimated time:	0.00 hour
Target version:		Affected Architecture:	
Affected Version:	2.4.2		

Description

Nearly every xml file in the packages collection includes
<!DOCTYPE packagegui SYSTEM "../schema/packages.dtd">

However, I can not find that file on an installed system, even one that includes one of those packages, e.g. routed.
