- Status changed from New to Closed

Unable to reproduce  
There is no interfaces\_vlan\_new\_prof.php page in pfSense

Suggest you discuss on the forum.

That page doesn't exist, but there is a reference to it: [https://github.com/pfsense/pfsense/blob/master/src/usr/local/www/interfaces\\_vlan.php#L87](https://github.com/pfsense/pfsense/blob/master/src/usr/local/www/interfaces_vlan.php#L87)

Looks like the bugs were introduced during a recent pull request merge: <https://github.com/pfsense/pfsense/pull/3868>

That PR is probably also the root cause of [#8222](#)

Yes. let's back out that PR.

**#4 - 12/18/2017 07:56 AM - Steve Beaver**

PR reverted.

This should now be fixed; I corrected the broken reference.

I can say it's fixed :)

Thanks!
