

pfSense - Bug #8248

Pfsense hangs - non pingable when removing traffic shaper from interface(s)

12/31/2017 09:12 AM - John Beaudoin

Status:	New	Start date:	12/31/2017
Priority:	Normal	Due date:	
Assignee:	Luiz Souza	% Done:	0%
Category:	Traffic Shaper (ALTQ)	Estimated time:	0.00 hour
Target version:	2.5.0	Affected Architecture:	amd64
Affected Version:	2.4.2_1		

Description

When implementing traffic shaping codeqlq to my WAN and LAN interfaces works fine when setting it initially. The problem exists when removing the shaping from my interface(s). The firewall is no longer pingable, the webgui is not accessible. Only resolve is to reboot the server.
