

pfSense - Feature #8348

Add firewall rule tracker ID display to rule list and rule edit page

02/27/2018 08:06 AM - Jim Pingle

Status:	Resolved	Start date:	02/27/2018
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	100%
Category:	Rules/NAT	Estimated time:	0.00 hour
Target version:	2.4.3		
Description			
<p>The firewall log output prominently displays the tracker ID and description for a rule, but there is no easy way to cross reference the ID with the rule in the other direction.</p> <p>If a firewall rule has a tracker ID set, it should be displayed on the rule edit page with the other static rule information (created/updated time) and if there is a way to fit it in the rule list that would also be helpful, perhaps in the per-rule state info tooltip.</p> <p>To me, I have a patch in progress.</p>
