pfSense - Bug #8353

Some automated rules are missing tracking IDs

03/01/2018 09:20 AM - Jim Pingle

Status:	Resolved		**Start date:**	03/01/2018
Priority:	Very Low		**Due date:**	
Assignee:	Jim Pingle		**% Done:**	100%
Category:	Rules / NAT		**Estimated time:**	0.00 hour
Target version:	2.4.3			
Affected Version:	All		**Affected Architecture:**	All

Description

Rules created or edited by users (and any rule before config rev 10.7) have a tracking ID added for correlating log events. Some new automatic rules are missing this ID, including:

- enableallowallwan script rules (also missing creator info)
- OpenVPN wizard rules
- EasyRule entries
- Traffic Shaping Rules (may not need them since they can't log anyhow)

Not a huge deal since none of those seem to log by default and if someone edits them to enable logging, the tracking ID will be added, but the inconsistency bugs me and it's easy to fix.

Associated revisions

Revision 74afe67c - 03/01/2018 09:42 AM - Jim Pingle

Add tracking to enableallowallwan and change to single rule. Ticket #8353

Revision 7c1aa62b - 03/01/2018 09:43 AM - Jim Pingle

Add missing firewall rule tracker info to automatically generated rules. Fixes #8353
