<b>Target version:</b>		<b>Affected Architecture:</b>	amd64
<b>Affected Version:</b>	2.4.3		

### Description

Hi,

On a new 2.4.3 deployment, on initial configuration, when trying to save the Captive Portal Voucher configuration, error message pops up:

"The following input errors were detected:

The field Synchronize Voucher Database IP is required.

The field Sync port is required."

This is a new host, meant to be used in a single host deployment.

Hi,

Are you using firefox?

I ask, because it look like a firefox autofill issue...

<https://forum.netgate.com/topic/102311/solved-synchronize-voucher-database-ip>

(UPDATE : i confirm, it's a firefox autofill issue)

Easy/dirty fix : add an additional checkbox like "enable HA" in vouchers settings, or add "autocomplete = off" to the HTML inputs
