Revision 5b42a63c - 05/10/2018 12:09 PM - Jim Pingle

Improve default gateway upgrade code. Ticket #8504

History

#1 - 05/10/2018 12:10 PM - Jim Pingle

- *Affected Version changed from 2.4.3 to 2.4.4*
- *Affected Architecture set to All*

At least part of this is related to the new GWG as default code. The upgrade code failed to handle several potential problem scenarios common in user configurations, like the ipprotocol not being set or no default being set. The old code always assumed a default.

There is still a separate issue related to DHCP I'm trying to track down.

#2 - 05/11/2018 09:52 AM - Jim Pingle

- *Status changed from New to Feedback*

The other case appears to be separate, see [#8506](#) -- I think this case has been solved.

#3 - 06/07/2018 09:09 AM - Steve Beaver

- *Status changed from Feedback to Closed*

Has been working as expected for two weeks with no further failures observed.
