

pfSense - Bug #8563

User with only "WebCfg - Firewall: NAT: Port Forward" cannot view the list of port forwards

06/11/2018 08:38 AM - Jim Pingle

Status:	Resolved	Start date:	06/11/2018
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	100%
Category:	Rules / NAT	Estimated time:	0.00 hour
Target version:	2.4.4		
Affected Version:	All	Affected Architecture:	All

Description

A user with the "WebCfg - Firewall: NAT: Port Forward" privilege can open firewall_nat.php but none of the port forward entries are displayed in the list.

If the user also has "WebCfg - Firewall: NAT: Port Forward: Edit" then the entries are show.

1:1 NAT and Outbound NAT pages appear to be OK, only port forwards suffer from this issue.

Associated revisions

Revision 2e6167e7 - 06/11/2018 08:58 AM - Jim Pingle

Be specific with port fwd priv checks. Fixes #8563

This way, users with only privs to view but not edit port forwards can still see the entries, but not act upon them.

Revision 0d35a025 - 06/14/2018 01:39 PM - Jim Pingle

Be specific with port fwd priv checks. Fixes #8563

This way, users with only privs to view but not edit port forwards can still see the entries, but not act upon them.
