

## pfSense - Feature #8698

### LDAP authenticated users should be able to log in via ssh

07/26/2018 04:14 PM - Eric Houston

<b>Status:</b>	New	<b>Start date:</b>	07/26/2018

<b>Target version:</b>			
<b>Description</b>			
We integrate pfsense against our Active Directory systems for authentication and authorization. Works well for the most part but we've discovered that LDAP authenticated users are unable to access the cli via ssh. This is unfortunate as we have security scanners, etc., that need this functionality in order to work properly.
