

pfSense - Bug #8805

Enabling vouchers on the captive portal voucher page does not regenerate captiveportal login template

08/19/2018 05:09 AM - A FL

Status:	Resolved	Start date:	08/19/2018
Priority:	Low	Due date:	
Assignee:		% Done:	100%
Category:	Captive Portal	Estimated time:	0.00 hour
Target version:	2.4.4	Affected Architecture:	All
Affected Version:	All		

Description

Clicking on "save" button of the voucher page does not enable vouchers on the login page. you currently need to click on "save" button of the captiveportal settings page in order to re-generate the right login page when using vouchers

Login remplate should be re-generated automatically when enabling/disabling vouchers

#5 - 08/21/2018 01:33 AM - Constantine Kormashev

Do not observe the issue, new roll is active after creation without additional actions.

- Status changed from Feedback to Resolved

This appears to be working now. With vouchers disabled, I can load the login page and there is only username/password available. If I then enable vouchers and touch nothing else, then refresh on the client, the portal login page has a voucher form field.
