

pfSense - Bug #8847

IPsec status "Show Child SA entries" button only expands and never collapses

08/28/2018 05:45 PM - Marcio Gomes

Status:	New	Start date:	08/28/2018
Priority:	Very Low	Due date:	
Assignee:		% Done:	0%
Category:	IPsec	Estimated time:	0.00 hour
Target version:	Future	Affected Architecture:	amd64
Affected Version:			

Description

I am using version 2.4.4, I noticed that in ipsec status when clicking (+) Show child SA entries is shown the details .. Only when clicking back nothing happens.

I also noticed that there is duplicate information .. and in Reuath in the tunnel IPSEC A is not shown

History

#1 - 08/28/2018 06:08 PM - Steve Beaver

- Target version changed from 2.4.4 to Future

#2 - 08/14/2019 12:16 PM - Jim Pingle

- Subject changed from IPsec status to IPsec status "Show Child SA entries" button only expands and never collapses

- Category set to IPsec

- Priority changed from Normal to Very Low

The "Show Child SA entries" button only expands and never collapses. That is surely something we can fix eventually, though it's just cosmetic, refresh the page and it's collapsed again.

The duplicate info is normal, we show what strongSwan shows. If it's in the GUI, it's what's in strongSwan, so that's what it has. Might be a rekey or it may have been negotiated in both directions, for example.
