

pfSense - Feature #8946

Add field to show IA_PD to DHCP6 Server page

09/25/2018 11:09 AM - Luke Hamburg

Status:	New	Start date:	09/25/2018
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	DHCP (IPv6)	Estimated time:	0.00 hour
Target version:	Future		
Description			
When DHCP6 is enabled on an interface and Prefix Delegation is requested, there is nowhere in the GUI to see: <ul style="list-style-type: none">• whether an IA_PD was received from the ISP• what the prefix was This is an attempt to get this info by parsing dhcpd.log and display it on the DHCPv6 Server page. I don't know if there is any other way but I am of course open to input! related forum thread: https://forum.netgate.com/topic/135723/ipv6-ra-prefix-doesn-t-match-interface-prefix-id PR: https://github.com/pfsense/pfsense/pull/3991			

History

#1 - 10/03/2018 08:47 AM - Steve Beaver

- Target version changed from 2.4.4-GS to 2.4.4-p1

#2 - 10/19/2018 11:18 AM - Steve Beaver

PR was closed. Awaiting new PR

#3 - 11/02/2018 10:47 AM - Renato Botelho

- Target version changed from 2.4.4-p1 to Future

Set it to Future until a new patch is submitted
