ssh_tunnel_shell: Disable console message output

01/07/2019 07:50 AM - Jim Pingle

Status:	New	Start date:	01/07/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	User manager	Estimated time:	0.00 hour
Target version:	2.5.0		
Description			
Users with only the "User - System: SSH Tunneling" privilege get the ssh_tunnel_shell program as their shell. When connected, these users receive console wall(1) type messages such as login notices, which are not relevant to ssh tunneling.			
If possible, these messages should be muted rather than displayed to the user.			

History

#1 - 01/08/2019 12:56 AM - Jim Thompson

It's worse than that. If I'm looking at the right source, that binary does nothing but chatter at the poor user.

Also, nbytes is uninitialized on the stack, and tested > 0 on first use. Sheer chance that it works.

This POS needs a rewrite.

#2 - 03/12/2019 10:55 AM - Jim Pingle

- Target version changed from 4.8 to 2.5.0
