#### Description

It would very nice to be able to see a history of available temperature readings even if that was just whatever CPU temp is reported in the dashboard.

This would make troubleshooting hardware issues significantly easier.

Individual CPU cores, ACPI thermal zones, harddrive temps etc would be a bonus.

#### History

**#1 - 03/12/2019 10:55 AM - Jim Pingle**

- Target version changed from 4.8 to 2.5.0

**#2 - 10/03/2019 06:09 PM - David Reitz**

I don't see a vote button, so +1 for this feature!
