- *Target version changed from 2.5.0 to 2.4.4-p3*

**#5 - 05/14/2019 11:42 AM - Constantine Kormashev**

Tried on 2.4.4-p3. I do not observe the issue. User and its cert were created without errors and warnings. I tried to create user and cert as well as create user and add its cert later, result the same no issue.
