

pfSense - Bug #9343

diag_arp.php times out with large DHCPD leases table

02/21/2019 01:38 AM - Anthony Hernandez

Status:	New	Start date:	02/21/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	DHCP (IPv4)	Estimated time:	0.00 hour
Target version:		Release Notes:	Default
Affected Version:			
Affected Architecture:			

Description

the diag_arp.php file is reading and parsing the full dhcpd file for many items that it doesn't use or need.

History

#1 - 02/21/2019 01:41 AM - Anthony Hernandez

I'm seeing slow or timed out page loads on systems with 10,000+ leases in the dhcpd file, 3.3mb+ in size. I'd review the diag_arp.php, I edited to be able to troubleshoot what I had in place.

#2 - 08/14/2019 01:19 PM - Jim Pingle

- Category set to DHCP (IPv4)

If you submit your changes as a PR on Github we can review them there.
