

pfSense - Bug #9344

OpenVPN click NCP Algorithms will always go to DH Parameters website(in Chinese-Taiwan)

02/21/2019 09:24 PM - Roll Stone

Status:	New	Start date:	02/22/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Translations	Estimated time:	0.00 hour
Target version:	2.5.0		
Affected Version:	2.4.x	Affected Architecture:	All

Description

OS:2.4.4-RELEASE-p2

When I using Chinese-Taiwan language.
And edit OpenVPN settings.

When click NCP Algorithms .It will always go to
<https://docs.netgate.com/pfsense/en/latest/certificates/dh-parameters.html>
This Web Pages.

[img]https://upload.cc/i1/2019/02/22/0cRG9P.png[/img]

So I can't change some parameter.

At first I think it is my computer or browser problems.
But I change Google Chrome or FireFox. I using other computer still the same.

When I post this article , I change language to English.
The problem is away. But I change Chinese-Taiwan language.
It still the same!

I found the problem.
HTML

`</code>`

it's should add `` on that line.

- Category set to Web Interface

- Target version set to 2.5.0

- Affected Version set to 2.4.x

- Affected Architecture set to All

There is a in the code, see source:src/usr/local/www/vpn_openvpn_server.php#L862 -- but it's run through sprintf for parameter replacement.

Looks like maybe the parameters are swapped in the translated string, however. Is there a to the left of that <a href=... when it should be to the right?

If you sign up at <https://translate.zanata.org/project/view/pfsense> you can correct the translated strings.
