

pfSense - Todo #9360

Switch to Python 3.x

03/01/2019 02:23 PM - Jim Pingle

Status:	Feedback	Start date:	03/01/2019
Priority:	Normal	Due date:	
Assignee:	Renato Botelho	% Done:	100%

Target version:	2.5.0		

Description

Python 2.7.x is not long for this world, going EOL on [Jan 1, 2020](#)

We need to ensure the base packages and other packages that require python 2.7 can be moved to python 3.6 or later.

pfSense itself does not have any direct dependencies, but some base packages do such as Unbound, bind-tools, rrdtool (via glib). Additionally, pfSense packages like FreeRADIUS, cellular, and Suricata show dependencies on python 2.7.

Renato has already started this work, and most items build successfully with python 3.6, though more testing is warranted.

History

#1 - 05/27/2019 09:00 AM - Renato Botelho

- Status changed from *In Progress* to *Feedback*

- % Done changed from 0 to 100

Already done. Python 2.x is not required anymore
