

pfSense Packages - Feature #9387

Update telegraf to 1.9.3 from ports

03/10/2019 12:27 PM - John Silva

Status:	Resolved	Start date:	03/10/2019
Priority:	Low	Due date:	
Assignee:	Renato Botelho	% Done:	0%
Category:	Telegraf	Estimated time:	0.00 hour
Target version:	2.5.0		
Description			
Telegraf port in pfsense (1.6.3) is substantially behind upstream FreeBSD ports tree (1.9.3). 1.9.3 has support for lots of new features including automatic grafana metric labeling (needed for pushing data into Splunk), https transport for protected metrics flow, and others.			

History

#1 - 03/12/2019 10:55 AM - Jim Pingle

- Target version changed from 48 to 2.5.0

#2 - 03/12/2019 03:11 PM - Jim Pingle

- Priority changed from High to Low

1.9.0 is available on pfSense 2.5.0 snapshots (which are not yet public)

That is the most recent release in the 2019Q1 branch.

<https://github.com/freebsd/freebsd-ports/tree/branches/2019Q1/net-mgmt/telegraf>

Once those snapshots are public, if the package tests and stable, we can consider updating the 2.4.4 version.

#3 - 03/12/2019 04:49 PM - John Silva

Sounds good, thanks.

#4 - 05/27/2019 09:03 AM - Renato Botelho

- Status changed from New to Resolved

- Assignee set to Renato Botelho

already moved to 1.10.1
