

pfSense - Bug #9460

OpenVPN local auth failing due to fcgicli output

04/05/2019 11:00 PM - Jim Pingle

Status:	Resolved	Start date:	04/05/2019
Priority:	Normal	Due date:	
Assignee:	Renato Botelho	% Done:	100%
Category:	OpenVPN	Estimated time:	0.00 hour
Target version:	2.5.0		
Affected Version:	2.5.0	Affected Architecture:	All

Description

OpenVPN local auth is failing on 2.5.0, due to what appears to be a change in fcgicli output.

Testing with set -x and some fake parameters shows it getting some extra output that it doesn't expect.

```
+ /usr/local/sbin/fcgicli -f /etc/inc/openvpn.auth-user.php -d 'username=amltcA%3D%3D&password=amltcA%3D%3D&cn=&strictcn=false&authcfg=TG9jYWwgRGF0YWJhc2U=&modeid=server2&nas_port=1194'
+ result='OK
(null) '
+ auth_result=0
+ [ 'OK
(null) ' '=' OK ]
```

Looks like a simple fix to change it over to php-cgi.

Associated revisions

Change ovpn_auth_verify_async to php-cgi. Fixes #9460

Revision 78645511 - 04/09/2019 07:15 AM - Jim Pingle

Revert "Change ovpn_auth_verify_async to php-cgi. Fixes #9460"

check_reload_status 0.0.10 fixes the original issue, this can go back the way it was.

This reverts commit ce76f299853dccb036de229f08a30013593c98fd.

#2 - 04/08/2019 08:20 AM - Jim Pingle

- Status changed from Feedback to In Progress

- Assignee changed from Jim Pingle to Renato Botelho

- % Done changed from 100 to 0

Looks like the issue in fcgicli should be addressed as a better fix. Assigning to Renato per his request.

#3 - 04/08/2019 05:49 PM - Jim Pingle

Tested a potential change from Renato and it appears to work as expected

```
+ /usr/local/sbin/fcgicli -f /etc/inc/openvpn.auth-user.php -d 'username=amltcA%3D%3D&password=amltcA%3D%3D&cn
=&strictcn=false&authcfg=TG9jYWwgRGF0YWJhc2U=&modeid=server2&nas_port=1194'
+ result=OK
+ auth_result=0
+ [ OK '=' OK ]
+ auth_result=1
+ printf %s 1
+ exit 0
```

#4 - 04/08/2019 07:18 PM - Renato Botelho

- Status changed from In Progress to Feedback

- % Done changed from 0 to 100

check_reload_status 0.0.10 should fix it

#5 - 04/29/2019 10:19 PM - Jake K

OpenVPN auth both local and radius are now functioning for me

#6 - 04/30/2019 07:05 AM - Jim Pingle

- Status changed from Feedback to Resolved
