| Target version: | 2.4.4-p3 | Affected Architecture: | All |
| Affected Version: | All | | |

Description

If /var/unbound/remotecontrol.conf is empty, it will not be rewritten. The code to write the file checks that the file exists, but not its size.

Applied in changeset [4b70a2006e6afb7813344eec8cafb8570e67256b](https://code.djangoproject.com/changeset/4b70a2006e6afb7813344eec8cafb8570e67256b).

#2 - 04/28/2019 11:30 PM - Chris Linstruth

Looks good here. cp /dev/null /var/etc/unbound.conf then a save of the unbound configuration populated the file.

2.4.4-p3 Looks good:

```
cp /dev/null /var/unbound/remotecontrol.conf
Save unbound configuration
```

/var/unbound/remotectl.conf populated
