

pfSense - Feature #953

On outbound NAT rule edit, hide ports when protocol does not use ports.

10/13/2010 07:41 PM - Erik Fannesbeck

Status:	Resolved	Start date:	10/13/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Web Interface	Estimated time:	0.00 hour
Target version:	2.0		
Description			
In other rule types, the fields for ports are hidden when selecting a protocol that does not use them. The edit page for outbound NAT should do this, too.

This should probably leave out the port fields when saving when not set to a protocol that uses them.

#5 - 11/22/2010 09:47 AM - Erik Fannesbeck

Should be fixed now.
